

Fully Managed LMS Services

Enjoy the cost savings and freedom from IT headaches because we've got you covered! Scholarix handles every aspect of the award winning, Moodle learning management system's setup, hosting, and continued operation so that you can focus on your business and educational goals.

Rapid Implementation

We understand that time is money and getting it done today is better than getting it done tomorrow. That's why

we take pride in the fact that we can have your system setup and ready to go in a matter of days rather than weeks or months like some other LMS companies and solutions.

Custom LMS Branding

In helping maintain your brand synergy, your learning management platform installation will also be uniquely customized to align with your organizations culture, colors, and imagery.

Scalable and Reliable LMS Hosting

Launching, hosting, and maintaining a successful online program demands the highest level of redundancy and reliability from your supporting technology infrastructure.

All of hosting solutions and facilities utilize state of the art security and are backed by 24/7/365 human network monitoring, performed by highly qualified system administrators.

But what if your program grows and your need increases? You can rest assured knowing that all of our hosting solutions can be upgraded at any time without lengthy interruptions to your service or lost data.
